

Team member 3 (Mainly tutor actor)

Student index number: 22020519

Student name: Kuruppu Arachchi K.A.D.A.A

Group number: IS28

Group name: Eduburd

Assigned Functionalities

- Manage Received Student Requests , Time Slot Requests (Accept/Reject Student Requests)
- Time Slot Management
- View Booked Time Slots
- View Payment Information and Analytics
- Upload and Manage Learning Resources
- Assignment Creation
- Assignment grading
- View Student Progress
- Tutorial Creation
- Feedback Review
- Profile Management (Edit Profile and Change Password)
- Dashboard Overview for Tutors
- View Admin Announcements
- Manage student announcements
- Parent comment Management
- View and filter all students

	Functionality	Description
1	Tutor Signup	Created functionality for tutor signup by entering full name, contact, email, DOB, password, re-enter password, qualification, experience, and subjects taught.
2	Tutor Login	Developed and tested tutor login with email and password. Ensured successful login with correct credentials and error messages for incorrect ones.
3	Manage Received Requests	Implemented tutor ability to view student requests, time slot requests, and accept or reject them. Button status updates to Accepted or Rejected correctly.
4	Time Slot Management	Developed functionality for tutors to add, edit, and delete available time slots for sessions. Verified that updated slots are visible to students.
5	View Booked Time Slots	Created functionality for tutors to view which time slots have been booked by students, along with student details.
6	Payment Information Management	Enabled tutors to view payment history, payment pending status, and receive payment reminders if required.
7	Upload and Manage Resources	Developed functionality for tutors to upload learning resources (PDFs, videos), edit descriptions, and delete files with confirmation.
8	Assignment Creation	Implemented functionality for tutors to create assignments, set submission deadlines, and manage (edit/delete) assignments.
9	Feedback Review	Enabled tutors to view feedback submitted by students, including ratings and comments. Verified sorting by date and rating.
10	Profile Management	Created "Edit Profile" feature for tutors to update personal information and teaching details. Also implemented "Change Password" functionality.
11	Dashboard Overview	Designed a dashboard showing tutor-specific analytics: number of students, upcoming sessions, pending requests, and payment status.

Test cases - Tutor Role

Tutor Available Time Setting

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
3	Verify that tutor can add a new time slot	1	The tutor is logged in, and the "Manage Time Slots" page is accessible.	The time slot is added successfully, and a success message ("Time slot added successfully!") is displayed	"Time slot added successfully!" is displayed	Pass

Deleting an Existing Time Slot

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
4	Verify that the tutor can delete an existing time slot.	1	The tutor is logged in, and at least one time slot exists.	The time slot is deleted successfully, and a success message ("Time slot deleted successfully!") is displayed.	"Time slot deleted successfully!" is displayed	Pass

Editing an Existing Time Slot

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
5	Verify that the tutor can edit an existing time slot.	1	The tutor is logged in, and at least one time slot exists.	The time slot is updated successfully, and a success message ("Time slot updated successfully!") is displayed.	"Time slot updated successfully!" is displayed	Pass

Adding a New Subject

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
7	Verify that the tutor can navigate to the "Add Subject" page to add a new subject.	1	The tutor is logged in..	The subject is added successfully, and a success message ("Subject added successfully!") is displayed.	"Subject added successfully!" is displayed	Pass

	Verify that tutor can't add a existing course	2	The tutor is logged in..	Displaying error message that "This course has already been added."	"This course has already been added." displaying	Pass
--	---	---	--------------------------	---	--	------

Deleting a Subject

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
8	Verify that the tutor can delete a subject from their list.	1	The tutor is logged in, and at least one subject exists in the database for the tutor.	The subject is deleted successfully, and a success message ("Subject deleted successfully.") is displayed.	"Subject deleted successfully!" is displayed	Pass

Adding grades for a specific course

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Actual Result	Status
10	Verify that the tutor can navigate to the "Add Grade" page and add a new grade for the course.	1	The tutor is logged in, and the course exists.	"Grade added successfully." is displayed.	Pass

	Verify that the page handles cases where no grades exist for the course.	2	The tutor is logged in, and no grades exist for the course.	"No grades available for this course." is displayed	Pass
--	--	---	---	---	------

Deleting Grades

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
11	Verify that the tutor can delete a grade from the course.	1	The tutor is logged in, and at least one grade exists for the course.	The grade is deleted successfully, and a success message ("Grade deleted successfully.") is displayed	"Grade deleted successfully." is displayed	Pass

AddingTutorials

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
14	Verify that the tutor can navigate to the "Add Tutorial" page and add a new tutorial.	1	The tutor is logged in, and the class exists.	The tutorial is added successfully, and a success message ("Tutorial added successfully.") is displayed.	Displaying "Tutorial added successfully" message.	Pass

Editing a Tutorial

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
15	Verify that the tutor can edit an existing tutorial.	1	The tutor is logged in, and at least one tutorial exists for the class.	The tutorial is updated successfully, and a success message ("Tutorial updated successfully.") is displayed.	Displaying "Tutorial updated successfully" message.	Pass

Deleting a Tutorial

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
16	Verify that the tutor can delete a tutorial from the list.	1	The tutor is logged in, and at least one tutorial exists for the class.	The tutorial is deleted successfully, and a success message ("Tutorial deleted successfully.") is displayed	Displaying "Tutorial deleted successfully" message.	Pass

Adding Assignments

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Actual Result	Status
--------------	----------------------	--------------	---------------	---------------	--------

18	Verify that the tutor can navigate to the "Add Assignments " page and add a new assignments .	1	The tutor is logged in, and the class exists.	Displaying “assignments added successfully” message.	Pass
----	---	---	---	--	------

Editing Assignments

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
19	Verify that the tutor can edit an existing assignments .	1	The tutor is logged in, and at least one assignments exists for the class.	The assignments is updated successfully, and a success message ("Assignments updated successfully.") is displayed.	Displaying “Assignments updated successfully” message.	Pass

Deleting Assignments

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

20	Verify that the tutor can delete a assignments from the list.	1	The tutor is logged in, and at least one assignments exists for the class.	The assignments is deleted successfully, and a success message ("Assignments deleted successfully.") is displayed	Displaying "Assignments deleted successfully" message.	Pass
----	---	---	--	---	--	------

Viewing Assignment Submissions

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
21	Verify that the tutor can view submissions for a specific assignment.	1	The tutor is logged in, and submissions exist for the assignment.	The tutor can view submission for the selected assignment.	Viewing submission for the selected assignment.	Pass

Student Progress

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

22	Verify that the tutor can view the progress table, including assignment numbers, titles, marks, and progress percentages.	1	The tutor is logged in, and assignment submissions exist for the selected class.	The progress table is displayed with accurate details for each assignment	Viewing the progress of students with accurate details	Pass
	Verify that the progress percentage is calculated correctly based on the marks of consecutive assignments.	2	The tutor is logged in, and at least two assignment submissions exist with marks.	The progress percentage is calculated and displayed correctly in the progress table.	Viewing calculated progress of student	

View Submission for assignments

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
23	Verify that the tutor can view all submissions for a specific assignment.	1	The tutor is logged in, and submissions exist for the selected assignment.	The tutor can view all submissions with accurate details.	view all submissions with accurate details.	Pass

	Verify that the tutor can download submission files for review.	2	The tutor is logged in, and submissions exist for the assignment..	The submission file is downloaded successfully.	The submission file is downloaded successfully.	Pass
	Verify that submissions that have been graded are marked as "Graded" in the table.	3	The tutor is logged in, and at least one submission has been graded.	Graded submissions are marked as "Graded," and the grade is displayed.	Graded submissions are marked as "Graded," and the grade is displayed.	Pass

Grading Assignment Submissions

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
24	Verify that submissions that have not been graded are marked as "Not Graded" in the table.	1	The tutor is logged in, and at least one submission exists for the assignment.	The submission is graded successfully, and the table is updated to reflect the grade.	The submission is graded successfully, and the table is updated to reflect the grade.	Pass

Viewing Announcements

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
25	Verify that the tutor can view all announcements for the selected grade class.	1	The tutor is logged in, and announcements exist for the selected class.	The tutor can view all announcements with accurate details.	Viewing all the existing announcements	Pass
	Verify that a message is displayed when no announcements exist for the class	2	The tutor is logged in, and no announcements exist for the grade class.	A message like "No announcements available." is displayed."	Displaying ""No announcements available." is displayed."	

Adding a New Announcement

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Actual Result	Status
26	Verify that the tutor can add a new announcement for the selected class.	1	The tutor is logged in.	Displaying "Announcement added successfully!"	Pass

Editing an Announcement

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
27	Verify that the tutor can edit an existing announcement.	1	The tutor is logged in, and at least one announcement exists for the class.	The announcement is updated successfully, and a success message ("Announcement updated successfully!") is displayed	Displaying "Announcement updated successfully!"	Pass

Deleting an Announcement

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
28	Verify that the tutor can delete an announcement from the list..	1	The tutor is logged in, and at least one announcement exists for the class.	The announcement is deleted successfully, and a success message ("Announcement deleted successfully!") is displayed.	Displaying "Announcement deleted successfully!"	Pass

Viewing Feedbacks

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
29	Verify that the tutor can view all feedbacks and ratings for the selected class.	1	The tutor is logged in, and feedbacks exist for the selected class.	The tutor can view all feedbacks with accurate ratings and comments.	viewing all feedbacks with accurate ratings and comments	Pass
	Verify that the ratings are displayed as stars (★) along with the numeric value.		The tutor is logged in, and feedbacks with ratings exist for the grade class.	Ratings are displayed as stars and numeric values accurately.	Ratings are displayed as stars and numeric values accurately.	Pass
	Verify that a message is displayed when no feedbacks exist for the grade class.	2	The tutor is logged in, and no feedbacks exist for the grade class.	A message like "No feedbacks available for this class." is displayed.	Displaying "No feedbacks available for this class."	Pass

Viewing Parent details

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

30	Verify that the tutor can view the parent's details, including name, email, phone number, and profile photo.	1	The tutor is logged in, and parent details exist for the selected student.	The tutor can view the parent's details with accurate information.	Viewing the parent's details with accurate information.	Pass
----	--	---	--	--	---	------

Viewing Parent comments

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
31	Verify that the tutor can view all comments from parents for the selected class.	1	The tutor is logged in, and comments exist for the selected class.	The tutor can view all comments with accurate details.	Viewing all comments with accurate details.	Pass
	Verify that a message is displayed when no comments exist for the grade class.	2	The tutor is logged in, and no comments exist for the class.	A message like "No comments available for this class." is displayed.	Displaying "No comments available for this class"	Pass

Adding a Reply to a Comment

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
32	Verify that the tutor can add a reply to a parent's comment.	1	The tutor is logged in, and at least one comment exists without a reply.	The reply is added successfully, and a success message ("Reply added successfully!") is displayed..	Displaying“Reply added successfully!”	Pass

Editing a Reply

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
33	Verify that the tutor can edit an existing reply to a parent's comment.	1	The tutor is logged in, and at least one comment exists with a reply.	The reply is updated successfully, and a success message ("Reply edited successfully!") is displayed.	Displaying“Reply edited successfully!”	Pass

Deleting a Reply

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

34	Verify that the tutor can delete a reply to a parent's comment.	1	The tutor is logged in, and at least one comment exists with a reply.	The reply is deleted successfully, and a success message ("Reply deleted successfully!") is displayed.	Displaying“Reply deleted successfully!”	Pass
----	---	---	---	--	---	------

Viewing Student Requests

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
35	Verify that the tutor can view all incoming student requests with their names, statuses, and actions.	1	The tutor is logged in, and student requests exist for the tutor.	The tutor can view all student requests with accurate details.	Viewing all student requests.	Pass

Accepting a Student Request

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

36	Verify that the tutor can accept a pending student request.	1	The tutor is logged in, and at least one student request is in the "pending" status.	The request is accepted successfully, and a success message ("Student request accepted successfully!") is displayed.	Displaying “ Student request accepted successfully!”	Pass
----	---	---	--	--	---	------

Rejecting a Student Request

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
37	Verify that the tutor can reject a pending student request.	1	The tutor is logged in, and at least one student request is in the "pending" status.	The request is rejected successfully, and a success message ("Student request rejected successfully!") is displayed.	Displaying “ Student request rejected successfully!”	Pass

Deleting a Student Request

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

38	Verify that the tutor can delete a student request.	1	The tutor is logged in, and at least one student request exists.	The request is deleted successfully, and the list updates to reflect the deletion.	The request is deleted successfully	Pass
----	---	---	--	--	-------------------------------------	------

Viewing Time slot requests

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
39	Verify that the tutor can view all pending time slot requests with student names, grades, courses, and actions.	1	The tutor is logged in, and time slot requests exist for the tutor..	The tutor can view all pending time slot requests with accurate details.	Viewing all pending time slot requests with accurate details	Pass

Accepting a Time Slot Request

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
40	Verify that the tutor can accept a pending time slot request and create a class.	1	The tutor is logged in, and at least one time slot request is in the	The request is accepted successfully, a class is created, and a success message ("Time slot request	The request is accepted successfully, a class is created, and a success message ("Time slot request	Pass

			"pending" status.	accepted successfully and class created!") is displayed..	accepted successfully and class created!") is displayed.	
--	--	--	-------------------	---	--	--

Rejecting a Time Slot Request

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
41	Verify that the tutor can reject a pending time slot request.	1	The tutor is logged in, and at least one time slot request is in the "pending" status.	The request is rejected successfully, and a success message ("Time slot request rejected successfully!") is displayed.	Displaying "Time slot request rejected successfully!"	Pass

Deleting a Time Slot Requests

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

42	Verify that the tutor can delete a time slot request.	1	The tutor is logged in, and at least one time slot request exists.	The request is deleted successfully, and the list updates to reflect the deletion.	The request is deleted successfully, and the list updates to reflect the deletion.	Pass
----	---	---	--	--	--	------

Viewing Tutor Income Analytics

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
43	Verify that the tutor can view their income analytics, including total income, current month income, previous month income, income change percentage, payment history, and income chart.	1	The tutor is logged in, and income records exist in the database.	Display Income details	Display Income details	Pass

Viewing Admin Announcements

Scenario TID	Scenario Description	Test Case ID	Pre-Condition	Expected Result	Actual Result	Status
--------------	----------------------	--------------	---------------	-----------------	---------------	--------

44	Verify that the tutor can view all announcements targeted to them, including the announcement text and posting date.	1	The tutor is logged in, and announcements exist in the database for the "tutor" audience.	Verify the following: Announcements are displayed in descending order of their posting date. Each announcement displays the text and the posting date.	Display Admin announcements	Pass
	Verify that a message is displayed when no announcements are available for tutors.	2	The tutor is logged in, and no announcements exist in the database for the "tutor" audience.	Verify that the message "No announcements available for tutors at the moment." is displayed.	Displaying "No announcements available for tutors at the moment."
